Cool Cats

Catamarans have long been popular in Asia, both for entertaining and stability when cruising, and we just can't wait to check out the massive 46-meter tri-deck catamaran Charley, making her World Premiere at the Show. We are heading straight to see her fully operational dive store, decompression chamber, and specialist sonar equipment.

The Big Boys

At 65 meters, the [Benetti](#) motor yacht Ambrosia has just arrived in Singapore for her third consecutive Show. With her six-massive deck levels, you will want to be careful to specify which level, when you tell someone you'll meet them on the aft deck (!). If you're a film buff, you'll recognize quickly the 41 meter MY Ocean Emerald, designed by Norman Foster and featured in the cult film, Point Break.

The 77-meter M/Y Silver Fast is the biggest yacht ever to be displayed at the Singapore Yacht Show. Super sleek is an understatement, this yacht will be a standout for its fuel efficiency and speed. Just 21 days is all it takes for her to cruise from Australia to Europe with only one single fuel stop.
