5. Twiga

Twiga was born from the experience derived or gained from the Billionaire Clubs, one of the legendary nightclubs and a worldwide famous brand which was created by Flavio Briatore, known from his days at Benetton Formula One racing team that later went on to becoming Renault F1.

The club appeals to a chic international clientele and is especially alive during the Monaco Grand Prix weekend where a bevy of stars from show business, fashion and sport come to dance the night away. It has most definitely become a rendezvous for the International Jet-Set. Pre 1 am the restaurant delights guests with a live-show dinner after which the music starts getting louder and the Cristal doesn't stop pouring until 5 am.
