

World League Of Agents Partner Spotlight: A+ Yachting

Throughout this series, we introduce you to [World League of Agents](#) (WLoA) and their members. A non-profit international Network. WLoA brings together yacht agents with long outstanding expertise from across the globe, each committed to providing exceptional service and well-known for their expertise and know-how.

As a consequence of the good service delivered locally, these agents were often requested to give referrals in other locations for agents who provide the same quality of service. Its founders recognised that it was necessary for agents to unite and compromise to a standard service. WLoA members are located in all popular yachting hubs such as Spain, France, Monaco, Italy, Croatia, Montenegro, Turkey, Malta, The UK & Ireland, The US, The Caribbean, and many more.

This week's feature is [A+ Yachting](#), a leading superyacht expert located in Croatia and Montenegro. The A+ team bring local expertise and knowledge of the Adriatic Coast's hidden gems to inspire Superyacht itineraries, alongside technical knowledge to support every step of the journey. In this article, we hear from founder [Ajka Matijevic](#) on how being a part of WLoA improves the companies' overall service to their clients.
