

CrewPass Announces Official Integration with Yotspot

[CrewPass](#) has announced today that they have integrated their service with Yotspot, the yachting industry's [leading job board](#). This exciting partnership will continue to expand CrewPass' integration rollout, whilst also looking to streamline Yotspot's already stellar recruitment processes.

CrewPass®

has integrated with...

yotspot
yachting opportunities & training

“Yotspot are always seeking to improve the standards of safety and compliance during the recruitment process, across our platform and the industry as a whole,” Yotspot said in a statement. “Digitalising this is a natural decision for us, so partnering with the Crew Pass service to offer integration within our platform will hopefully improve compliance operations for employers and crew alike.” – Steve Crawford, Founder of YotSpot.

Managing Director of CrewPass, Conrad Empson gave his thoughts on the integration, stating:

“CrewPass was designed to give every crew member easy access to obtaining a full global background check while providing anyone with trusted and verified proof of undergoing this to anyone. Our integration with Yotspot gives every crew member the opportunity to showcase that to an employer every time they apply for a job. Our mission is to create a safer industry for all crew, owners and their families. Yotspot gives everyone access to the crew willing to put themselves through these checks. I couldn’t be happier to be working with Yotspot and providing our users with another place to showcase their Approved status.”

Yotspot’s crew profile will now provide a background check section within their profile registration forms, with the option to link jobseeker’s CrewPass account with their Yotspot account to provide the background checks needed to get CrewPass accreditation.

Bring your profile to the forefront of an employer's attention.
