

Pure Bliss – New Hybrid Feadship Launched

The [Feadship](#) yard in Makkum has launched project 1009 Pure Bliss.

Pure Bliss is the new 95m Hybrid [Feadship](#) Superyacht. She has been described as a “timeless family yacht” benefitting from the very latest hybrid propulsion and is set to be a world traveller.

The owner’s involvement has been essential to the success of both the exterior and interior design. With incredible attention to detail. The exterior is designed by Jan Schaffers of [Studio De Voogt](#) complimented perfectly by the elegant interior design courtesy of [Rémi Tessier](#).

Key features

The high ceilings onboard give this Superyacht a spacious feel with nine luxurious guest cabins. Large lounges, and an extensive gym and wellness area. Combined with expansive exterior deck areas, and large pool. Plus a commercially certified helideck which converts into a full sports and games deck. *Bliss* is prepared for endless family fun. Leisure facilities aside, this is a [Feadship](#) built for serious exploration. She is fully equipped and certified to cruise Polar regions, anchor in deep water, or keep position with her dynamic positioning system. *Bliss* sails with a top speed of 17 knots and has a range of 6000 nautical miles at a cruising speed of 12 knots.

What the Project Manager says

Project Manager Alber Abama has said: “[Feadship](#) is renowned for offering a unique experience to owners who wish to become personally involved and, in this case, the client embraced

every opportunity to play a role. He also thoroughly enjoyed meeting the craftspeople and learning about our processes at the yard. Bliss really is a Feadship built with as well as for her owner."

The Tech

This Hybrid Feadship has state-of-the-art technology and engineering covering all onboard systems. Advanced security and life-safety systems have been discretely incorporated. De Voogt Naval Architects has been heavily involved in the design and engineering of the hybrid propulsion system to enable the yacht to sail in diesel-electric mode. Exceptionally flexible in terms of its ultra-efficient energy consumption and offering major fuel savings. This package helps to protect the environment and provides premium comfort for all who step aboard.
